

State of Nevada

IT Project Oversight Committee

Charter

Control No. / Rev.	Title	Effective Date	Page
9.01 (A)	ITPOC Charter	11/14/02	1 of 1

1.0 PURPOSE

This charter establishes the State of Nevada, Information Technology Project Oversight Committee (ITPOC).

2.0 MISSION

The IT Project Oversight committee will review the state's major IT projects and develop management standards for all projects. The committee will identify and remediate risky and potentially unsuccessful project activities and problem situations at the earliest possible time, provide for monitoring, evaluation and reporting on projects with issues that require heightened management attention, develop standards and procedures for project steering committees to follow, and provide an efficient and effective means to share "best practices", "lessons learned" and other information on IT project management and oversight with the state's IT community.

3.0 LIFE SPAN

The Information Technology Project Oversight Committee will exist indefinitely.

4.0 RESPONSIBILITIES

The responsibilities of the Information Technology Project Oversight Committee are to provide oversight of information technology (IT) projects in the state of Nevada. Project oversight is an essential management practice to ensure the successful implementation of information technology projects. The purpose is to ensure that the project is being managed in compliance with the project plan, that sound management practices are being observed, that the project is adequately staffed and that schedules are reasonable and are being met. The ITPOC will:

- Serve as an advisory committee on IT Project Management and Oversight issues
- Establish state level IT Project Management and Oversight policies and standards
- Identify, review and provide guidance for state level IT Project Management problems and issues
- Promote understanding and awareness of IT Project Management and Oversight throughout the State.
